GRINDER PUMP REQUIREMENTS

Initials items below. I/we:

- Request the City of West Lake Hills (City) to order the grinder pump & accessories package for the service address listed above.
- Agree to pay for the grinder pump package and understand that I am responsible for any applicable manufacturer price increase before I remit payment to the City to purchase the package. I understand that the purchase is final and is non-refundable.
- Understand that once the grinder pump is purchased, it will be reserved and tagged with my name and address and that I will be responsible for arranging delivery from Hydro Source Services [14 Applegate Circle, Round Rock Texas, 78665] 512-572-6188] to the service address listed above.

City of West Lake Hills Grinder Pump Order Form

- Understand that I am responsible for self-connection costs including, but not limited to: a) constructing/installing the sewer line from the tap (stub-out) to the structure and installing a tap if there is no stub-out; b) installing the grinder pump according to the specifications provided by the City, including inspections; and c) decommissioning my septic system(s), if applicable.
- Understand that I am responsible for getting a City building permit and for having my contractor/plumber and electrician call for required inspections of the sewer connection. I am also responsible for contacting HydroSource to inspect and start-up the grinder pump.
- Agree to schedule an appointment with the City Septic Inspector at 512-610-6836 to discuss the requirements of properly decommissioning the existing septic system, if a septic system is present. And I will provide documentation that the septic system has been decommissioned properly.
- Understand that I am responsible for following the manufacturer's instructions and for not releasing prohibited materials into the grinder pump system.
- Understand that once the grinder pump is installed, it will be owned and maintained by the City and that I should contact Crossroads at 512-246-1400 for service and emergencies.
- Understand that once the grinder pump is installed, it cannot be moved and that I will be responsible for buying a new grinder pump package if I apply for a building permit that will modify or alter the grinder pump or grinder pump location.
- Agree to coordinate with the city to remove the existing grinder pump and control panel prior to tearing down or substantially remodeling a property with an existing grinder pump that would otherwise be demolished.
